

# Lock it up!

Born, bred and here to stay. We were born in Michigan and bred on hitches and trailers all over North America. And we still manufacture our products in the heartland of the automotive world...Michigan USA. For 30 years, we've been designing and producing innovative products to make your adventures safe and secure with a simple philosophy: if we can't do it better, we don't do it.

- Gary Johnson, President
